Re: Training

I have tentatively scheduled our annual day-long training workshop on Saturday, Sept. 18, at the Bear River Health Department. A make-up workshop for those who cannot attend on Sept. 18, will be held 4-10 p.m. Tuesday Sept. 21.

Your participation in these workshops would be appreciated.

I am still developing a list of topics to cover at the workshops. So far, the list includes:

- Overview of the MRC program and existing pre-hospital emergency services
- Liability issues
- Credentialing
- Incident Command
- START Triage

If you have any further suggestions, or if you would like to recommend an instructor, please give me a call.

Thank you.
